

Colorful, durable,
waterproof membrane

Applications

Drop-arm awnings, velums et pergolas, shadesails, light structures and fixed shading systems

■ Sparks creativity

- A unique satin finish to give a modern and high end look to your projects
- A palette of 40 colors to give personality to the most varied designs
- Flexibility and strength providing total freedom of shape and and size.

■ Innovation and Performance

- A weldable PVDF surface treatment improves dirt resistance
- A very smooth finish ensures easy upkeep
- Tried and tested protection against heat and bad weather for year-round comfort
- Maximum UV protection: Soltis Proof 502 blocks 100% UV rays (UPF 50+ for all colors).

■ Proven longevity

Thanks to Serge Ferrari Précontraint technology, Soltis Proof 502:

- does not tear or stretch, ensuring structures last over time
- durably resists UV damage due to rigorous pigment selection and thicker yarn crest coating than the competition.

Unfailing resistance
for colorful projects

■ Exclusive Précontraint® technology

Patented worldwide, the Précontraint® technology by Serge Ferrari involves keeping the composite under tension throughout the manufacturing cycle. It gives our materials exceptional performance that enable them to surpass market standards in terms of dimensional stability, mechanical strength, coating thickness and flatness.

High-tenacity polyester micro-yarn base cloth	①	Superior elongation and tear resistance
A coating with fabrics under bi-axial constant tension in both warp and weft directions	②	No deformation during processing and use
Greater coating at the top of the yarns and a dirt resistant surface treatment	③	Superior aesthetic and mechanical durability
Exceptional flatness and thinness	④	Smooth finish easy to clean, space saving, easy rolling
